CGV Solar Overview

AVMI Group Companies:

01

Cute Green Ventures (CGV) is a rapidly growing solar EPC company headquartered in Singapore. We specialize in end-to-end solar photovoltaic (PV) system solutions across Singapore, Malaysia, and India.

02

CGV is part of AVMI Group, a multi-disciplinary group with strong roots in engineering, energy, marine, and logistics services across Asia. Originally part of the Cutech Group, AVMI now operates independently, delivering specialized solutions across Singapore, Malaysia, and India with a sharp focus on innovation, quality, and sustainability.

03

We design, engineer, procure, and construct high-performance solar PV systems for homes, businesses, and industries. Our focus is simple: create clean energy solutions that are attractive, long-lasting, and deliver a high return on investment.

04

- Singapore – Cute Green Ventures, Cute Marine Services, Cute Solutions Services
- India – Cute Green Ventures India, Cute Solutions India, Cute Logistics Solutions
- Malaysia – Cute Solutions Malaysia

REC Certified Solar Installer

Advantages of using REC Certified Solar Installer

1. QUALITY PRODUCT, QUALITY INSTALLATION

Knowing that not only is the solar panel of high quality, but that the person installing it is also highly skilled and has been trained by REC, gives end customers greater peace of mind for the quality of the installation.

2. ADDED COMFORT

Take comfort in knowing that your solar installer has been carefully selected, trained, and certified by REC. Not every installer can call himself an "REC Certified Solar Professional". This means best-in-class service and reliability.

3. REC PROTRUST WARRANTY

By having your REC panels installed by a certified REC Certified Solar Professional installer, you qualify for REC's ProTrust Warranty*, which covers product (25 years), performance (25 years), and labor (25 or 10 years).

SOLAR PV SERVICES

1

*Turnkey Rooftop Solar PV
System for Industrial &
Residential properties*

2

Off-grid Solar PV System

3

*Operational & Maintenance
Services*

4

*3rd Party Assessments on
Solar Assets*

Scope of Services

1

Site surveys

2

Design (module layout, inverter configuration, mounting structure, etc)

3

Energy and shading simulations

4

Submission to SP Services

5

Procurement ,Warehousing and delivery of equipment

6

Installation

7

Quality control & Testing and commissioning

8

Arrangement for SP Services/Power Grid to inspect and turn on the system

OUR PORTFOLIO

EPC

Installed PV Capacity: **47+ MWp**

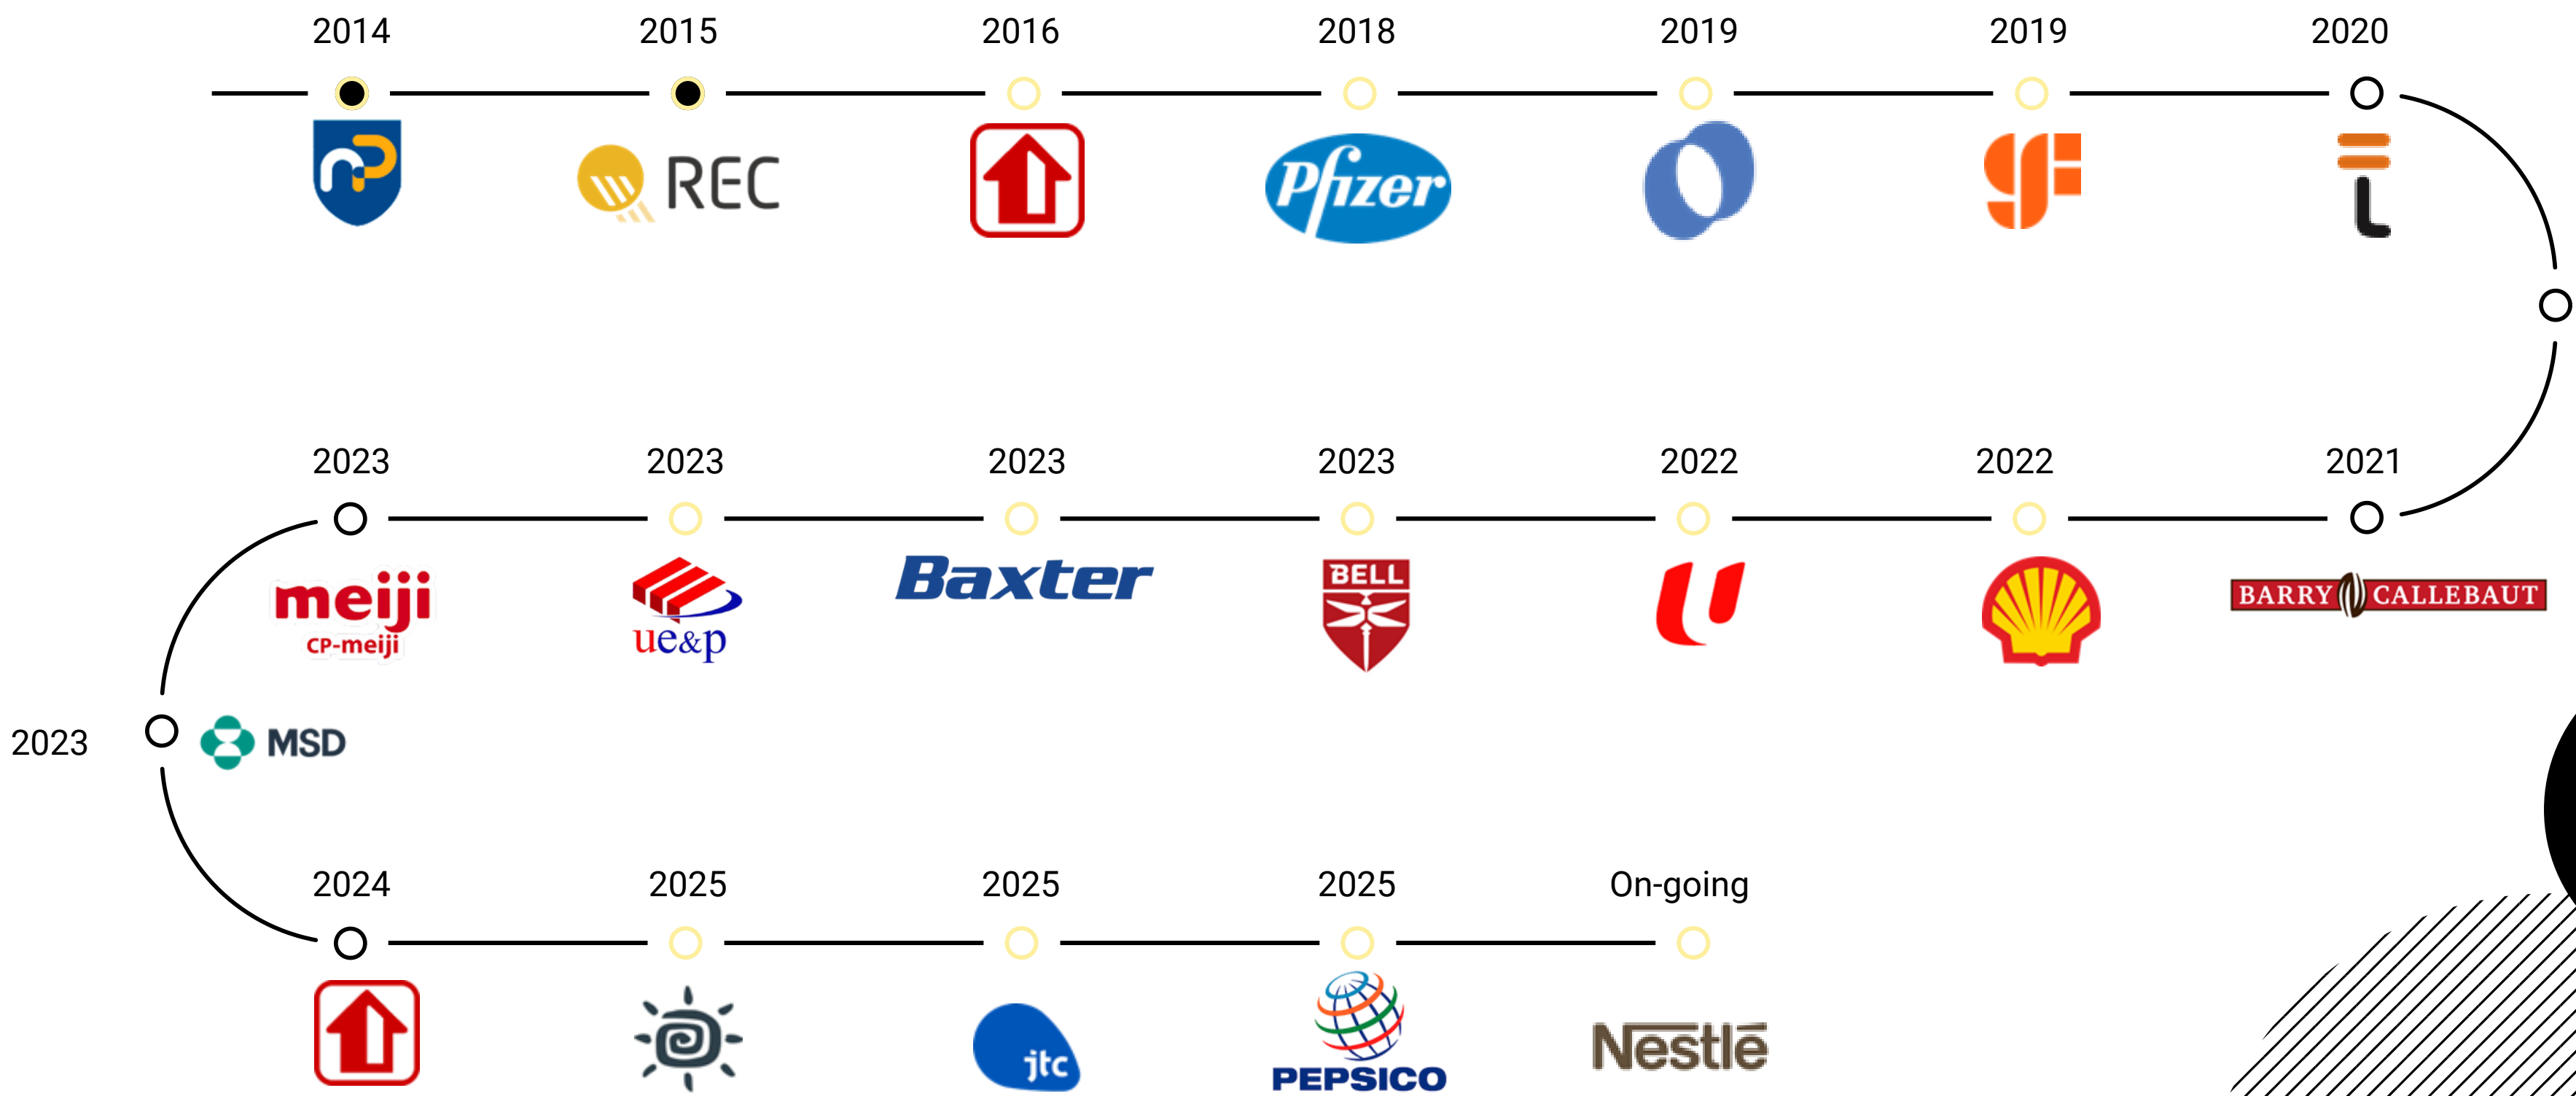

O&M

System Capacity: **34+ MWp**

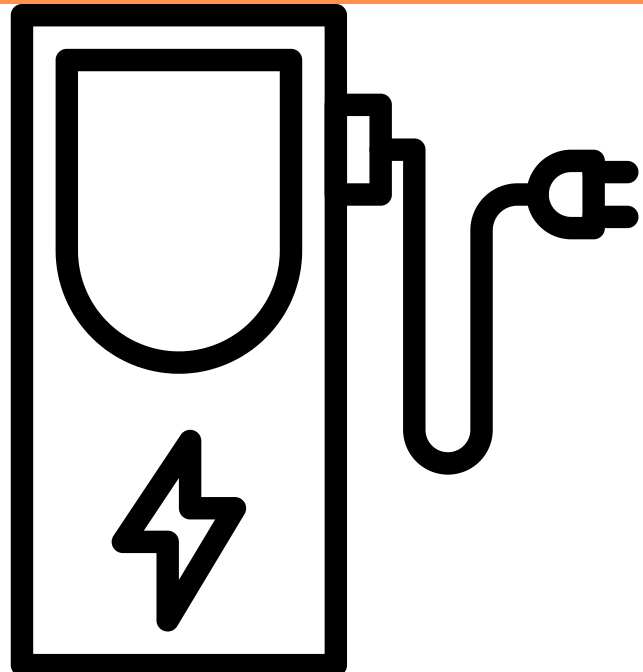

Sites - **100+** Sites in Singapore,
Malaysia & India

NOTABLE PROJECTS

OTHER SERVICES

1

EV Charger Installation

2

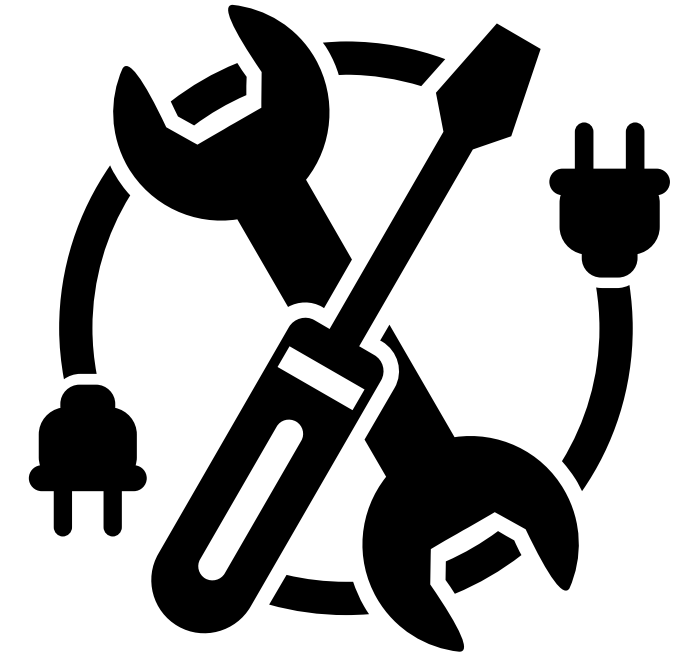

CCTV Camera Installation

3

*Maintanance of CCTV
installation*
